CONVERT™

Contains a special blend of naturally occurring direct-fed microorganisms, L-form Lactobacillus, microbial sugars, enzymes, and specialized proteins that can be used regardless of the challenges. No antibiotics. Proven safe and effective. Use when calves are lethargic, not eating and overall doing poorly.

Dosage:

CONVERT Day One Calf Gel (at birth) 5-15cc (challenge) 15cc**
 CONVERT Ranch Pack 200D (day 1-21) 1/2 scoop (challenge) 4 scoops**
 CONVERT Ranch Pack 1000D (day 1-21) 1/2 scoop (challenge) 4 scoops**
 CONVERT Day One Calf Bolus administer one at birth or times of increased challenges
 CONVERT Calving Season Bolus equivalent to 7.55cc of Convert Day One Calf Gel.
 - Administer 1 bolus at birth or 2 boluses at birth when faced with increased challenges.

**During periods of challenge, increase daily dose to challenge level for 1 to 2 feedings, evaluate calf response, then return to normal dose rate.

Select BioCycle Showcase Formula™

Concentrated form of BioCycle supplemented with increased enzyme levels and Bacillus, which has been shown to improve calf growth. Contains two separate L-form bacteria that enhance the function and population of the microflora in the lower gut. Showcase also contains both yeast culture and live cell yeast that produce a range of metabolites including B-vitamins, broad based enzyme package, specialized proteins, microbial sugars and potassium iodide. Use for maximizing growth when weaning calves and leading up to shows.

Dosage:

Calves at weaning: 1/2 ounce/head/day for 7 days then 1/4 ounce per day thereafter.
 Breeding age heifers: 1/2 ounce/head/day for 7 days then 1/3 ounce per day thereafter.

Supplements & Colostrum Replacers

First Day Formula®

A colostrum replacer or supplement for newborn calves. First Day Formula® contains dried, natural bovine colostrum and is fortified with essential vitamins and chelated trace minerals. It is made from high quality whey protein concentrate from select Grade A dairies and is free of organisms causing major colostrum-transmissible diseases, including Johne's. The instantized ingredients ensure all the packaged contents are mixed to get your calves off to a healthy start. Contains 150 grams IgG per 500-gram package. First Day Formula® Deluxe features the great benefits of First Day Formula® CR with the addition of First Defense Technology™. Use when maternal bovine colostrum is inadequate.

Dosage:

First Day Formula CR (replacer): one packet to 2 quarts warm water.

First Day Formula CR (replacer): 3 level scoops with 2 quarts warm water.

First Day Formula CS (supplement): 1 quart warm water / feed at least 2 quarts clean, disease-free colostrum as well.

Code	Description	Size
FD0500	FIRST DAY CR (REPLACER) 500-GRAM PACK	10 PACKETS/ CASE
FD0020	FIRST DAY CR (REPLACER) 20 LB. PAIL	18 DOSES/PAIL
FD0021	FIRST DAY CR DELUXE 20 LB. PAIL	18 DOSES/PAIL
FD0200	FIRST DAY CS (SUPPLEMENT) 200-GRAM PACK	10 PACKETS/CASE

Tri-Mic WD

A probiotic source for use in whole milk, or milk replacer to improve digestive microflora. Promotes the early establishment of beneficial digestive bacteria necessary for proper digestion of milk and grain diets. Aids in rumen development when transitioning to a dry feed diet. Reduces the occurrence and severity of scours and helps re-establish digestive bacteria following antibiotic treatment, illness or environmental stress.

Dosage:

Mix with pasteurized whole milk or milk replacer at one gram per head per day. Increase to two grams per head per day during periods of stress.

Code	Description	Size
TM0500	TRI-MIC WD	500-GRAM JAR / 8 PER CASE
TM5000	TRI-MIC WD	5 KG PAIL / 4 PER CASE

Tri-Purify

Tri-Purify is a dietary feed supplement that provides pure, natural essential oils that have a strong antibacterial effect to improve the natural immune system. Combines live, naturally-occurring microorganisms to enhance the environment of the digestive tract. Tri-Purify also contains nutraceuticals, intestinal bacteria and live cell yeast; all of which can attribute to a reduction in the severity and occurrence of scours. Fermentation metabolites, hydrolyzed yeast, yeast extract and yeast culture are all present and have shown to improve weight gain and feed efficiency, as well as enhance intestinal microflora.

Dosage:

One capsule. Administer at 3 days of age, upon receiving incoming calves, or during periods of digestive upsets (scours). Follow up with Tri-Start Jr. or CONVERT™ Calf Gel.

Code	Description	Size
TP0036	TRI-PURIFY - BLUE BOLUS	36 CT JAR/ 8 PER CASE

Tri-Start Jr.

A direct-fed microbial bolus that benefits both the rumen and intestinal tract of calves. Each capsule has a guaranteed viable (live) count of 20 billion colony forming units of naturally occurring microorganisms. Helps to stimulate feed intake during periods of change. Contains optimal levels of beneficial microbes necessary to jump-start a calf's stalled digestive system. Administer bolus during any management-induced stress such as dehorning, shipping or moving, weaning and vaccinations. Use during periods of high stress or as follow up to Tri-Purify.

Dosage:

Administer 1 bolus when calf is 3 days old to transition from colostrum to milk replacer, and the day of weaning.

Code	Description	Size
TS0036	TRI-START JR - MAROON BOLUS	36 CT JAR/ 8 PER CASE

Calf Accellyte

A complete electrolyte treatment for calves experiencing scours or dehydration. Contains potassium and sodium to replenish electrolytes and restore proper fluid balance. Blended with glycine and citrate to improve electrolyte and water absorption. Added dextrose provides nutritional energy and buffers help minimize metabolic acidosis. Easily mixes with water.

Dosage:

Use when calves are dehydrated and below par. Use two quarts per feeding for calves weighing 100 lbs.

Code	Description	Size
AC0026	CALF ACCELLYTE 25 LB. PAIL	MAKES 280 QUARTS / 1 PER CASE

All West Paste Plus

Paste Plus is a direct-fed microbial product that contains live, natural occurring microorganisms. These lactic acid producing bacteria reproduce themselves every 18 to 19 minutes once in the intestine. This is important because most other beneficial, as well as harmful bacteria, reproduce themselves every 25 to 60 minutes.

Paste Plus contains a live lactic acid producing bacteria called Enterococcus faecium M74 and Lactobacillus Acidophilus, and a pure strain of Saccharomyces Cerevisiae, a live yeast cell product. Paste Plus also provides a significant amount of vitamins A, D3, B12, Niacin and Thiamine for supplemental nutritional support.

Code	Description	Size

MD0300	PASTE PLUS 300CC	(30 DOSES)
MD1000	PASTE PLUS DISPENSING GUN	

Calf Care Products - Calf Housing

Calf-Tel®

For decades, Calf-Tel® has set the standard for superior durability and efficiency, making your investment in calf housing systems one that grows with each generation of calves it protects. Calf-Tel® housing can help you improve labor-efficiency, calf health and overall profitability regardless of the size or scope of your operation.

Calf-Tel® MultiMax

When weaned calves are placed in large groups, the stress from competition and social pressure can lead to growth and health setbacks. Placing 4-6 similarly sized weaned calves in a Calf-Tel® Multimax is the best way to ease the transition.

Calf-Tel® Deluxe II and XXL Calf Hutch

The Deluxe II model offers a left or right offset shrouded entry and side access door, for easy access to inside feeding stations. The Pro II model is designed to use an outside feeding station. XXL Hutches are 42% larger than the current models and are available in both Deluxe II and Pro II models.

Calf-Tel® Pen Systems

The Calf-Tel® Pen System provides calf raisers with the most versatile, highest labor saving, calf-saving, calf manager friendly indoor pen system available. These pens are easy to set up and configure.

Woolover®

High performance blankets help animals grow quicker and more efficiently. Keeps animals warm and dry, allowing nutrients to be used for growth. Research reveals significant performance gains in calves wearing Woolovers. Made of 70% wool, 30% polyester. Ultra Woolover has a waterproof Emphatex™ outer-shell with original Woolover material underneath.

Sizing:

Small: 77-99 lbs. Jersey Calves

Medium: 99-121 lbs. Newborn Holsteins

Large: 121+lbs. 3 week to 3 month old calves.

Code	Description	Size
CC0101	WOOLOVER CALF COVER	SMALL
CC0102	WOOLOVER CALF COVER	MEDIUM
CC0103	WOOLOVER CALF COVER	LARGE
CC0111	ULTRA CALF CVR	SMALL
CC0112	ULTRA CALF CVR	MEDIUM
CC0113	ULTRA CALF CVR	LARGE

AccelCoat

Provides additional protection to calves during cold weather. Made with our exclusive insulation which wicks moisture away from the calf and provides superior thermal capabilities. The outer shell is made of high-strength polyester with a urethane back, making it water resistant. Machine washable and durable against the harshest conditions. A smooth, quilted liner provides warmth and comfort for the calf. Small fits Jersey calves and large fits Holstein calves. Use when the temperature is 40°F or below.

Code	Description	Size
CC0001	DOUBLE INSULATED / BELLY STRAP	SMALL
CC0002	DOUBLE INSULATED / BELLY STRAP	LARGE

CalfTel Calf Cover

If there was such thing as luxurious warmth in a calf-jacket you've just found it. Three layers of protection, including 3M THINSULATE technology, will keep calves warm during the colder months. A sturdy buckle vs. velcro will keep the blanket secure without getting gooked up with manure and straw.

Code	Description	Size
CC0114	DOUBLE INSULATED / VELCRO FRONT	SMALL

Select DTX™

Proven effective in neutralizing damaging effects of mold related challenges. Feed when ingredients are moldy, or mycotoxins are suspect; when symptoms of mycotoxicosis are present and when feed assays show the presence of multiple toxins or when one toxin in particular is high. Contains specific L-form Lactobacillus. More shelf-life stable than other products. Proprietary technology allows activation once consumed. Use when symptoms are present and feed assays show problems. Common signs are loose manure, low feed consumption, reduced milk production, and poor reproduction, including weak heats, cystic cows and abortions.

Dosage:

Feed ½ once/head/day. Mix into TMR or protein and mineral mix.

Code	Description	Size
DX9097	REG DTX FEED-	50 LB BOX
CX1025	DTX CONCENTRATE-	50 LB BAGS

Select BioCycle Plus™

The most often chosen product, offering the benefits of both DTX and BioCycle in one convenient, less costly package. Producers feeding BioCycle Plus reported reduced SCC, improved reproductive performance, increased digestive capacity and improved general health. More shelf-life stable than other products. Proprietary technology allows activation once consumed. Use when metabolic diseases and toxin challenges are present.

Dosage:

Feed ½ once/head/day. Mix into TMR or protein and mineral mix.

Code	Description	Size
BC9095	BIOCYCLE PLUS	50LB
CP9099	BIOCYCLE PLUS CONC	50LB BAGS
CP9199	ORG-BIOCYCLE PLUS CONC	50LB BAG

Select BioCycle™

Aids in boosting immune function, digestion and fights environmental challenges. Producers report increased estrus expression and improved feed intake. Contains two types of L-form Lactobacillus, two sources of yeast, four digestive enzymes, microbial sugars and specialized proteins. Recommended when performance improvements are needed in reproduction, and overall herd health. Not appropriate when mold-related challenges are the major problem.

Dosage:

Feed ½ once/head/day. Mix into TMR or protein and mineral mix.

Code	Description	Size
BC9091	REG BIOCYCLE	50LB
CB9051	BIOCYCLE 5G CONC	50LB

Bovine Accellyte II

A specialized electrolyte for periods of stress, rehydration and prehydration. Contains electrolytes to replace those lost during stress, energy to provide an added boost when needed most, minerals needed to compensate for deficiencies from reduced feed intakes and vitamins necessary for life. Can be used as a drench, added directly into stock tanks or individual water feedings. It can also be dry-mixed into feeds for group or herd application. Use in periods leading up to heat stress and through high heat indexes.

Dosage:

Feed one ounce per cow per day for single application. Feed 6 pounds per 100 cows per day for herd application.

Code	Description	Size
AC0010	BOVINE ACCELLYTE II	10 LB. PAIL / 4 PER CASE
AC0025	BOVINE ACCELLYTE II	25 LB. BAG / 2 PER CASE

Tri-Start Bolus

An encapsulated, highly concentrated source of rumen-specific microbes in bolus form. Each capsule has a guaranteed viable count of 100 billion colony forming units (CFU). Tri-Start enhances the rumen environment to improve digestive performance and repopulate rumen microflora after periods of stress. Contains lactic acid bacteria, live cell yeast and fungal extracts. Use when cows are entering and leaving the sick pen.

Dosage:

1 capsule at periods of change (weather, feed, day of calving, day after calving, shipping, following vaccinations).

Code	Description	Size
TS0025	TRI-START BOLUS	25 COUNT JAR / 12 PER CASE
TS0100	TRI-START BOLUS	100 COUNT BOX / 5 PER CASE

Tri-Mic 1:50

Improve feed intake and feed utilization for maximum production and reproductive performance. Uses patented methods of stabilization and packaging to ensure live, viable and fast-acting microbes for maximum performance.

Dosage:

Use as top dress or mix into TMR. 1 pound per 50 head.

Code	Description	Size
TM0004	TRI-MIC 1:50	4 LB. BAG / 8 PER CASE
TM0020	TRI-MIC 1:50	20 LB. BAG / 2 PER CASE

Freshen Up

Fresh cow protocol to be administered immediately after calving to reduce the incidence of milk fever, retained placenta and ketosis. Contains a proactive combination of multiple sources of calcium, electrolytes and energy. Unlike other products, Freshen Up contains palatable ingredients so it can be used as a drench or offered free choice. Contains four different sources of Calcium to give fresh cows the boost they need right away, as well as a timed-release of Calcium. Use during the transition period or during the days surrounding calving.

Dosage:

Mix 1 pound with 5 gallons of lukewarm water. Offer solution as first water after calving.

Code	Description	Size
FU0010	FRESHEN UP	10 LB. PAIL / 4 PER CASE
FU0035	FRESHEN UP	35 LB. PAIL

BioFresh® Bolus

Gets fresh cows on feed faster reducing potential metabolic disorders and DAs. Proven effective in reducing SCC by boosting immune function of cows affected with environmental challenges. 8x dose of BioCycle with added vitamins and minerals. Ideal for fresh cows, supplies critical vitamins and minerals.

Dosage:

One bolus per day for three consecutive days.

Code	Description	Size
BF1011	BIOFRESH BOLUS	50 COUNT JAR / 6 PER CASE
BF1012	BIOFRESH BOLUS	400 DOSE PAIL / 2 PER CASE

Vink Hiplift

Helps save cows that can't stand. With proper use it will not cause bruising around the hipbone and is easily adjusted.

Code	Description
HL1000	COMPLETE COWLIFT

Vink Calfpuller

Makes difficult deliveries easy. Double action puller with unique rump frame encircles the rear of the cow making it impossible for the frame to slip away. Constructed of stainless steel to ensure long, trouble-free service.

Code	Description
CP1000	COMPLETE CALF PULLER

UTREsept

Intra Uterine Flush - use in a prophylactic program. Has a prolonged residual effect, requires no rinsing. Will not irritate the uterine lining, no milk withdrawal, nontoxic, food safe, hypoallergenic, and non-corrosive. All-natural of organic origin.

Dosage:

Treats approx. 75 cows

Code	Description	Size
UC0500	UTRESEPT INTRA UTERINE FLUSH	500 ML

Teat Dips

4XLA®

Designed as a pre and post dip with excellent teat-conditioning power. 4XLA is the ideal dip if you want the killing power of UDDERgold 5-Star (15-20 seconds) but don't need the barrier. Proven effective against environmental and contagious organisms, including Staph aureus. Replenishes the cow's natural defenses for fighting mastitis. Very effective against hyperkeratosis.

Code	Description	Size
XA1501/XA1502	4XLA PRE/POST TEAT DIP	15GALLON SET
XA5501/XA5502	4XLA PRE/POST TEAT DIP	55 GALLON SET
XA3041/XA3042	4XLA PRE/POST TEAT DIP	304 GALLON SET

UDDERgold® 5-Star

Barrier film, improves environmental mastitis protection. Controls a broad spectrum of bacteria including Mycoplasma species. Glycerin and emollient polymers help improve skin health.

Code	Description	Size
FS1501/FS1502	BARRIER POST DIP	15GALLON SET
FS5501/FS5502	BARRIER POST DIP	55 GALLON SET

Aztec Gold™

Increased mastitis protection. Offers long-lasting color marking, up to 5 hours. Thicker viscosity dip clings to teats longer, exposing them to the extended killing power.

Code	Description	Size
AZ5501/AZ5502	PRE/POST DIP	55 GALLON SET

EfferCept SG®

An alternative to Iodine that is cost effective at any milk price. This tablet contains all the great properties of EfferCept and SoftGuard in one tablet. Proven effective as a pre/post dip or spray. Kills 99.99% of E. Coli, Staph aureus and other mastitis-causing organisms on contact. Conditions, soothes and protects udders and teats. NPE free. Mix two tablets to one gallon of water.

Code	Description	Size
EF0110	MAKES 55 GALLONS	110 COUNT JAR
EF0550	MAKES 275 GALLONS	550 COUNT JAR

EfferCept®

Economical pre/post dip. Maximizes killing power while eliminating corrosive effects found in iodine-based products. Pill form mixes with water to be a spray or wash pre-dip. Mix four tablets to one gallon of water.

Code	Description	Size
EF0220	MAKES 55 GALLONS	220 TABLETS
EF3400	MAKES 385 GALLONS	20 LB. (1,540 TABLETS)

UDDERgold® Dry

Dry Cow Teat Sealant This teat sealant provides a physical barrier that aids in the prevention of mastitis in dry cows. UDDERgold® Dry sanitizes with ethyl alcohol (53% w/w) and the anti microbial Triclosan (0.1%), then dries in 2 minutes into a persistent coating that remains on the teat surface 3-7 days

Dosage: Treats approx. 75 cows

Code	Description	Size
UD0032	UDDERGOLD® DRY TEAT SEALANT	1 QUART

Uddermint®

Improves overall udder health by reducing udder edema. All-natural, antibiotic free, peppermint oil based liniment. Dairy producers report improvements in udder quality and pliability within 12 to 24 hours. For use after freshening, or apply to quarters on cows that show signs of mastitis.

Code	Description	Size
UM0101	UDDERMINT - GREEN	500ML - 25 / CASE
UM0103	UDDERMINT - WHITE	500ML - 25 / CASE
UM0105	UDDERMINT - GREEN	2.5L - 6 / CASE
UM0108	UDDERMINT - WHITE	2.5L - 6 / CASE
UM0107	DISPENSER	2.5L NIPPLE

Estrotect™

No more messy glue. Scratches off exposing brilliant color when cows are mounted. Additional mountings result in increased color exposure. Simple and easy to use. Use when setting cows up for ovsynch or after breeding to track heat cycles. The precision-designed Breeding Bullseye takes the guess work out of your breeding program. When the Bullseye, or equivalent amount, is rubbed off it's time to breed!

Color Options:

Orange, Lime Green, Fushia, Blue, Yellow

Code	Description	Size
EA0050	ESTROTECT™	50 PER PACK

Kamar® HeatMount™ Detectors

Advanced heat detection aid that helps identify standing heat occurring between visual observations. Apply with adhesive over sacrum of cow. Detector turns red when activated by mounting activities in the herd.

Code	Description	Size
KM8210	KAMAR PATCH	INDIVIDUAL OR 100 / BOX WITH ADHESIVE

Detect-Her™ Tailpaint

Rubs off with several mounts. Has BITTERGUARD® to deter licking. Water soluble for easy clean-up and will not stain hands. Available in wipe-on or aerosol.

Code	Description	Color
TP1100	Aerosol	Fluorescent Green
TP1300	Aerosol	Fluorescent Orange
TP1000	Aerosol	Fluorescent Pink
TP1200	Aerosol	Fluorescent Blue
TP1400	Aerosol	Fluorescent Yellow

Eazi-Breed™ CIDR®

Produces tighter estrous synchronization, which means more animals in heat in a tighter insemination window. The insert is easily administered into the vagina, continuously releasing progesterone, allowing breeding programs to start at any stage of the estrous cycle.

Code	Description	Size
CR1274	CIDR	10 / PACKAGE
CR1275	CA CIDR'S	10 / PACKAGE
CR1285	APPLICATOR	INDIVIDUAL

Breeding Sheaths

Code	Description
CS8450	CONT SHEATHS- FLARED
CS8446	CONT SHEATH-PKG
CS8350	CONT SHEATH-PKG GREEN PUSHED
CS8355	CONT SHEATH NON PUSHED GREEN
CS8360	CONT SHEATH-PKG BLUE PUSHED
ET8100	BLUE ET SHEATH METAL TIP
ET8200	BLUE ET SHEATH PLASTIC TIP
FS8343	CONTINENTAL FRENCH SHEATH SPLIT

Insemination Guns

Code	Description
SG8130	AI GUN STAINLESS 1/2 CC (uses Green sheath)
SG8131	AI GUN STAINLESS 1/4 CC (uses Green sheath)
SG8132	IMV KOMBICOLOR 1/2 - 1/4 CC GUN (uses Blue sheath)
SG8134	AI GUN STAINLESS CONTINENTAL 2-MATE (uses Green or Blue sheath)
SP8131	1/4CC PLUNGER FOR AI GUN
SP8132	1/2 CC PLUNGER

Straw Handling Supplies

Code	Description
CC8185	CITO STRAWCUTTER
TW8170	TWEEZERS
TW8171	TWEEZERS TECH STAINLESS STEEL
SC8180	SCISSORS

Breeding Supplies

Safe-Lube

A Non-spermicidal highly viscous gel like formula uses the latest in chemical technology to make palpation easy. It is water soluble, stainless, colorless and odorless with bacteriostatic properties. Can also be used for vaginal exams, vaginal implants, catheters and stomach tubes. An excellent aid when assisting with birth.

Code	Description
AI0001	AI LUBE-1GAL
LP8191	PUMP FOR 1 GAL LUBE

Breeding Kit

Plastic breeding box to hold all your breeding supplies. Comes with a Cito straw cutter and tweezers.

Code	Description
AK8142	AI KIT CITO PLASTIC

Breeding Gloves

Code	Description
CG8305	CONT VET GLOVE-BLUE
CG8306	CONT VET SUPER-SENSITIVE
CG8307	CONT VET GLOVE-CLEAR
CG8320	CONT VET GLOVE-PURPLE
CG8330	CONT VET GLOVE SUPER SENSITIVE

Breeding Extras

Code	Description
TG8702	TANK GUARD SHIPPING CARTON
TM8160	THERMOMETER-DIAL
TM8161	THERMOMETER-CARD
ST8151	SHADED THERMOS
SB8575	PLASTIC SQUEEZE BOTTLE

AI Gun Warmer

Heated, temperature controlled carrying case keeps guns at correct temperature. Includes: 12V rechargeable battery, belt/shoulder strap, 100V AC wall adaptor, 12V DC auto adaptor, spare liner. One-year warranty.

Code	Description
GW0001	GUN WARMER
GB0001	GUN WARMER BATTERY
GC0001	GUN WARMER CHARGER
GW0002	LINER FOR GUN WARMER

Cito Thaw Box

A proven thaw unit for properly thawing semen. A sensitive and accurate thermostatic control ensures a constant temperature range of 95° - 98° F. Indicator light shows when the unit is ready to use, and when it is maintaining the water bath at the proper temperature. Includes AC adaptor and DC adaptor.

Code	Description	Size
CI8157	CITO THAW 12-120V	
CL0001	CITO LID COMBO

The CowManager® system is a continuous three-in-one heat, health and rumination herd monitoring system. All measurements are taken by a computer microchip that is combined with the cow's ear tag making it different from any other system on the market. The system includes three modules that measure health, fertility and feeding by constantly monitoring temperature, activity, rumination and eating time. This system is unique because it:

- Uses revolutionary ear tag technology.
- Is an easy system to install. Just plug and play.
- Monitors activity, eating time, rumination and temperature.
- Is the first system to make finding cows on the alert list easy.
- Has a multi-view option that allows consultants to review data to help troubleshoot potential issues.

Fertility (Heat Detection):

Use the Fertility module for reliable heat detection. Not only does it provide information on the optimal time for insemination, but it also provides insights into the cows cycle giving you all of the information you need to make a pregnancy. The CowManager system is here to help you: lower insemination costs, increase pregnancy rates, ensure the optimal age at calving and shorten intervals between calving.

Heath (Sickness):

Providing early and reliable detection of cow ailments can be a large cost savings. Early detection means there are less health issues, reduced use of antibiotics, decreased production loss and lower labor costs. The CowManager® system can alert you to possible ailments including: mastitis, E. Coli, uterine infections, hardware disease, displaced abomasums and diarrhea. By providing insight into substandard cow behavior and ear temperature, the CowManager system is also an exceptional tool to monitor the recovery of sick cows.

Nutrition (Rumination and Eating):

The nutrition module provides a reliable measurement of the number of minutes each cow spends eating, grazing and ruminating. By providing insight into the eating behavior of individual cows, management groups and the entire herd, CowManager gives you the perfect assessment of the right ration for your herd, and is an excellent tool to monitor cows in the transition period. The Nutrition module provides you and your feed analyst with actual information that is directly tied to feed efficiency, allowing for rations that can provide more milk per cow.

Our Commitment:

Just driving on to a farm and providing a highly fertile unit of semen is not doing all we can to get cows pregnant.

The Herd Management Products we offer meet a strict set of guidelines. These products need to help producers maintain healthier cattle, get cattle bred and help customers be more profitable to ultimately enhance our member/owner's success through genetics. Healthy cows breed back and getting cows pregnant is the goal of our A.I. cooperative. Highly fertile semen, healthy cycling cows and proper timing of A.I. all add up to superior conception rates and satisfied, profitable customers.

This is why we have partnered with trusted names in the animal health industry to bring you a wide range of products including calf care, cow care, udder health, heat detection and reproduction, electronic herd monitoring and more. All West/Select Sires is your partner in bovine reproduction and we are committed to offering you the products you need to be successful.

Contact your local All West/Select Sires Representative today to order your products!
